

Squirrel Class Shine in Their Fabulous Production of A Big Green Adventure

Squirrel Class delighted families, staff and the whole school community with their wonderful performance of A Big Green Adventure - a humorous, lively and heartfelt production with a powerful environmental message at its core. The children performed with exceptional confidence, passion and commitment, bringing the story to life with energy, teamwork and a deep understanding of the themes behind the play.

A Story With Purpose: What A Big Green Adventure Is All About

The play follows a group of children who discover that the world around them is changing - rivers are becoming polluted, animals are losing their homes, and resources are being used faster than nature can replace them. Together, they embark on a “big green adventure” to learn how they can protect the planet.

Through a mixture of humour, storytelling and debate, the characters explore important ideas such as:

- recycling and reducing waste
- protecting endangered habitats
- saving energy and water
- making small changes that have a big impact

The story perfectly supports our Eco-School ethos, reminding us that everyone - even the youngest among us - can make a difference.

Acting With Heart and Humour

The children threw themselves into their roles with real enthusiasm. Their acting was expressive, confident and full of humour, keeping the audience entertained from beginning to end. They demonstrated excellent timing, characterisation and teamwork, each child shining on stage in their own way.

What made the performance truly special was how deeply the children believed in the message of the play. Their characters debated real-world environmental issues, and the children approached these moments with maturity, thoughtfulness and conviction. Their passion for protecting the environment was evident in every scene.

Beautiful Singing, Word-Perfect Lines

The songs throughout the production were performed beautifully, with clear diction, great projection and tremendous enthusiasm. Squirrel Class sang with confidence and joy, filling the hall with catchy tunes and heartfelt lyrics about caring for our planet.

The children also impressed everyone with how word-perfect they were. They had clearly worked extremely hard to learn a large number of lines, songs and actions — a fantastic achievement for such young performers.

Exploring Issues, Debates and Challenges

Throughout rehearsals and class discussions, the children explored the environmental issues presented in the play. They debated questions such as:

- *Whose responsibility is it to look after the planet?*
- *What happens if people don't change their habits?*
- *How can we encourage others to live more sustainably?*

These debates helped the children develop their understanding of real environmental challenges, deepened their sense of responsibility as Eco-School citizens, and informed their on-stage performances with genuine purpose and conviction.

A Celebration of Our Eco-School Values

The themes of the play tie perfectly into our ongoing Eco-School journey. Through this production, Squirrel Class demonstrated:

- environmental awareness
- care and respect for the natural world
- understanding of sustainable living
- courage to speak up for positive change

Their passion was evident and inspiring.

A Performance to Remember

We are enormously proud of every member of Squirrel Class. Their teamwork, confidence, enthusiasm and commitment were outstanding. They brought joy to the audience, shared an important message, and showcased everything we value about learning through the arts.

A Big Green Adventure was far more than a performance - it was a celebration of creativity, community spirit and our shared responsibility to protect the world around us.

What a fantastic achievement for our brilliant young performers!
